Name _____

Lab # 13 -- Painting

Description:

Paint your woodworking project using the paint and tools provided.

Materials: Tools:

Spackle   Putty Knife
Putty knife   Brushes
Sander or Sanding Blocks   Roller Covers
Paint or Stain   Roller
Drop Cloth or Paper   Roller Pan
Latex caulking   Cans for soaking brushes
                                                    Caulking gun

Directions:

1. Prepare your project as needed by filling holes and sanding. DO NOT FILL HOLES IN BOTTOM.
2. Write your name on the bottom of the toolbox.
3. Working on a drop cloth or paper, paint from the toolbox from the inside out. Do not paint the bottom. Place the painted project on a block of wood with the grade sheet under it.
4. Clean brushes when you are done.
5. **Clean up shop.**
